

How to Delete TikTok Now?

fixmytik.com

TikTok Now is a feature within the TikTok app that prompts users to share a snapshot of what they're doing at a random time each day, using both the front and back cameras of their phone.

It's designed to capture authentic, unfiltered moments. The idea is to provide a more realistic view into the lives of users, similar to the concept of the French social app BeReal.

Users can choose between a static photo or a 10-second video and have three minutes to post after receiving the notification.

How To Delete a TikTok Now

- Open the TikTok app.
 - Tap on your **profile icon**.
 - Select the **video** you wish to delete.
 - Tap the **three-dot menu icon** (for Android) or the **share icon** (for iOS).
 - Choose **Delete** from the menu.
 - Confirm the deletion by tapping **Delete** or **Confirm**.

How To Access TikTok Now

- Open the **TikTok app**.
 - Look for the **Now button** (lightning icon) along the bottom navigation bar, next to the posting button.
 - Tap the **Now button** to see an Explore Feed of TikTok Nows — a daily photo and video experience from people you are connected with.
 - When you receive a daily prompt, you have up to three minutes to capture a 10-second video or a static photo to share what you're doing at that moment.
